## **With Thermosoft's In Floor Heating Health Care Plan, You Can Keep Your HVAC**

A growing number of people are aware of the health benefits of in floor heating. But what many don't know is that converting to underfloor electric heat doesn't mean you have to give up your HVAC. The good news is, Thermosoft's heated flooring system can be used not only for sole source heating, it can be used to supplement traditional HVAC systems as well.

Radiant heat is infrared energy that heats objects (and people) directly without heating the air. It's the infrared energy produced by the sun that allows people to feel warm on a cool day. The human body produces infrared energy for warmth and tissue repair and may require a boost at times to provide the fullest healing possible. This is why doctors recommend and people use heating pads to soothe muscles, alleviate pain and accelerate tissue repair. It doesn't require much imagination to understand the health care benefits provided from being surrounded and soothed by the infrared energy of Thermosoft's in floor heating systems radiating from the feet up.

What's more, Thermosoft's heated flooring is well suited for people with allergies. With underfloor electric heat, there are no noisy fans to cause drafts and to blow warm air, dust, dirt and allergens around the home or office. Electric in floor heating typically is not wall-to-wall carpeted, so this harbor for dust mites, dirt and allergens can be eliminated.

Thermosoft's in floor heating systems may not be covered by health care plans except in cases where a home is being retrofitted with underfloor electric heat in conjunction with a specifically prescribed program of therapy, for example when shower and bath floors and seats need to be warm because of a patient's intolerance to cold. Similarly, walk-in bathtubs have been covered by some health care plans and manufacturers are now adding Thermosoft's bathtub seat and back heaters as an additional benefit.

To facilitate more American's access to the health care benefits of underfloor electric heat, Thermosoft is offering generous price discounts on all in floor heating systems. No longer is heated flooring the exclusive domain of expensive custom homes, Hollywood movie stars, professional athletes and congressmen. Now, every homeowner can have underfloor electric heat from Thermosoft installed in their home or office as part of their own, personal, private healthcare plan.

Homeowners and professional installers can conveniently shop Thermosoft's secure and verified website that reliably operates 24/7/365. Many buyers choose to call Thermosoft's toll-free "heatline" so they can speak with knowledgeable and trusted professionals to help them navigate the various in floor heating health care plan options. Thermosoft's honest, informative, respectful company sales representatives are standing by to answer heated flooring and installation questions by phone or by chat. Thermosoft offers a 100% money back guarantee. If for any reason you are not happy with your underfloor electric heat health care plan, you can keep your HVAC.

Side effects from the extreme comfort, potential energy savings and opportunity to integrate with off-grid, alternative energy sources provided by installing ThermoSoft in floor heating systems include drowsiness, muscle relaxation, acute sense of silence, tranquility, peacefulness and elevated levels of euphoria. When considering any health care plan, it is wise to consult with a doctor to be sure that heated flooring is right for you.
